REGULAR CAPS

old style figures

0123456789

lining figures

0123456789

Old style figures have varying heights and alignments. They are similar to lowercase characters; they share the same height and have ascenders and descenders.

Lining figures have uniform height and generally align with the baseline and cap height.

tabular old style

0123456789

tabular lining

0123456789

proportional old style

0123456789

proportional lining

0123456789

Proportional figures have variable spacing and widths, which create even balance and color when set in text.

Tabular figures have the uniform spacing and the same width, which makes them ideal for aligning in tables, lists and financial statements.
